

FOR IMMEDIATE RELEASE

Kahuna Powersports Brings New Meaning to Spring Cleaning with Start Your Season Specials at Upcoming Toronto Motorcycle Show

Toronto, February 24 – Starting Saturday March 17th to Sunday the 18th at the Toronto International Centre on Airport Road, Kahuna Powersports, Toronto's largest motorcycle and powersport dealership and Canada's number one Kawasaki retailer, kicks off Toronto's International Spring Motorcycle Show offering clearance pricing and extraordinary incentives on motorcycles and accessories - never before seen!

The Toronto International Spring Motorcycle Show occurs just prior to the start of Ontario's riding season. Kahuna Powersports located in hall three, booth 3057, will offer special sale pricing and incentives on Yamaha and Kawasaki models - plus their array of motorcycle gear and accessories. These offers will be available only during the two day show event. Kahuna intend to stoke the rider community by providing incredible savings for riders to get fully equipped and ready for the road ahead this season. Touring, sport or off-road, Kahuna provides expertise in all areas. "We had huge success at the recent January Supershow and a great time with our regular customers and the new friends we made. Our contest and incentives, especially the Kawasaki Ninja 250 giveaway, was an immense hit! Providing these additional savings and good fun to the motorcycle community makes it all worthwhile for our entire team", states Joe Linardi, President of Kahuna Powersports.

"Plus we've got a huge surprise to unveil at this show - we will now be adding the famous "Zero-Engineering Original Samurai Choppers" - to our product range at Kahuna. We'll have one of the bikes on hand at the show for viewing". Zero-Engineering was established in Okazaki City Japan by builder Shinya Kimura and PLOT Japan to design and produce very limited custom vintage motorcycles. "We know Brad Pitt and Tom Cruise each own one. We're very excited to be part of

another first for Canada; bringing something so unique to the GTA motorcycle community. This is the first time a bike like this has been in the country!” adds Joe.
